SUMMARY

B.Tech Computer Science student specializing in Artificial Intelligence & Machine Learning, with hands-on experience building full-stack applications and machine learning fundamentals. Skilled in Python, C++, and core AI/ML libraries (NumPy, Pandas, scikit-learn), with a strong grounding in data structures, algorithms, and database systems. Eager to apply and grow technical skills through impactful AI/ML-focused internships and projects.

EDUCATION

Acropolis Institute of Technology and Research (AITR), Indore	2024 – 2028
B.Tech – Computer Science Engineering (Artificial Intelligence & Machine Learning)	Semester 4

PROJECTS

Student Exam Repository System | Flask, SQLite, HTML/CSS

- Built a full-stack web application enabling students and teachers to securely upload, download, and manage previous-year question papers.
- Implemented role-based login authentication for separate student and teacher access levels.
- Designed subject-wise and semester-wise filtering to streamline content discovery for users.

Banking Management System | C++, OOP

- Developed a console-based banking application supporting account creation, deposits, withdrawals, and balance inquiries.
- Applied object-oriented design principles (classes, encapsulation) to ensure modular, maintainable code.

Movie Ticket Price Calculator | Python

- Built a Python application to dynamically calculate ticket pricing based on user inputs such as seat category and showtime.
- Implemented conditional logic and modular functions for accurate, reusable fare calculations.

TECHNICAL SKILLS

Programming Languages:	C++, Python
Web Development:	HTML, CSS, JavaScript (Basic)
Backend & Database:	Flask, SQLite
ML / Data Libraries:	NumPy, Pandas, Matplotlib, scikit-learn
Tools & Platforms:	Visual Studio Code, Git, GitHub, LM Studio
Core Subjects:	Data Structures & Algorithms, Object-Oriented Programming

RELEVANT COURSEWORK

Data Structures & Algorithms • Machine Learning Fundamentals • Database Management Systems • Operating Systems • Computer Networks • Object-Oriented Programming

ADDITIONAL INFORMATION

Strengths:	Quick Learner, Teamwork, Time Management, Adaptability
Languages:	English, Hindi
Hobbies:	Coding, Gaming, Learning New Technologies
